Whistleblower claimed that leadership knew of these allegations sooner than they publicly admitted to. Which was confirmed by the Roy's Report release this week (see link below).

IHOPKC leadership (Sliker) brought this person in to confront them about this topic and proceeded to boldly claim that all the knowledge of allegations was new to him.

This weeks Roy's Report article claims a timeline much different than IHOPKC claims here in the audio.

See the article here that contradicts their story: <https://julieroys.com/ihopkc-report-d...>

quote I've known about victim and I've been working with this victim through

0:06

this so sler literally said to The Whistleblower that he was working with a

0:11

victim through this months ago whenever The Whistleblower brought up a different victim's name so it's like this is

0:18

happening this is going on and sler knows it because he's working with one of the victims W up

0:25

andn up and all right what's up guys welcome back to another episode of wake up and

0:31

win podcast with your host Christina Fay hello and myself blae Fay great to see you guys again today we are coming at

0:37

you today with an exclusive audio that we will be releasing at the end of this

0:42

episode now you guys heard just the other day uh a minute and a half audio that was released of an elt when we say

0:50

elt it's an executive leadership team member uh with uh someone that's a

0:56

whistleblower within IHOP KC if you hear our kid kids in the background they're being babysat today so just uh you may

1:03

hear some kids hollering in the background so that audio was a minute and a half audio with no context

1:10

released just shared it to put that out there to start the conversation okay

1:16

this is actually going to be the entire 15minute conversation to give some context and then we're going to give

1:22

we're going to give some insight to kind of give some commentary surrounding it before you listen to the whole thing

1:28

this would be number one no names are going to be released in this audio okay every single name is cut out including

1:34

the names of people that are that they're saying are possible alleged

1:39

victims um as well as The Whistleblower himself so that's number one the context

1:46

is a person that has been there for a very long time and known these elt members for a very long time Isaac

1:53

Bennett is in the room and Dave sler is in the room you're going to notice a couple things in this uh from the moment

2:00

this person walks in and they're called in um it is a very

2:06

awkward honestly brought back some memories to because I've been called into these meetings before to have

2:12

conversation now this is way more Extreme as far as the context I was

2:17

called in for theological differences many many years ago and it was it was intense it's it's intense when you're

2:24

friends with somebody but also the spiritual Dynamic of a of a

2:30

leader and someone that is under your leadership regardless of what your friendship's like there's still a power

2:37

play you had the spiritual leadership there's a power play there so let's just

2:42

talk about it Christina what are your thoughts like from the time he walks in the room what was the feeling well the

2:49

whole thing is so strange because the Whistleblower is called into this meeting um and he doesn't know why and

2:57

he never actually finds out why so Dave sler calls him into a meeting and won't

3:04

tell him why he's there but instead wants him to guess like wants

3:09

the Whistleblower to like beg him to tell him why he's there it's very strange it's very uh the first thing

3:16

that stuck out to me actually was that it's not very Matthew 18 which they seem to be very big on it's like if you have

3:23

a grievance with somebody call them in and then like berate them until they can guess what they did to you it's so weird

3:29

it it's like very very immature very manipulative and it was just so odd to

3:37

like hear it over and over um which you'll hear in a minute Dave sler will not tell him why he called him in there

3:44

he's just like you betrayed me you betrayed me he's like what' I do I don't know what I did I don't have a clue and

3:49

he literally won't tell him so that was what stuck out to me first is I was like well gosh for people who preach Matthew

3:55

18 all the time this is a very interesting way to do it yeah I would agree

4:00

and and what's interesting about it is like what I was paying attention to was

4:09

organizationally this is how and I hear these stories you hear these stories and I've heard these stories over the years

4:16

and what's interesting I mean I was told the other night on a comment somebody's like oh yeah you are you're just a

4:21

burned IH Hopper or something that's wants to be an accuser and what I always am trying to consistently remind people

4:28

is that I actually have been promoting IHOP stuff for the last four years like

4:36

literally a guy commented yeah he's just burned and this that and the other I was like actually I don't know if you knew it but I made reconciliation with these

4:41

guys and been promoting their stuff for the last four years he deleted his comment like immediately because so so

4:46

this is not coming from a place well essentially people would message me even after I made reconciliation with them be

4:52

like oh my gosh I read your story because the Casey star picked it up and like I read your story um you know I got

4:58

called into a meeting was treated this way and this way and I and I would just kind of ignore it honestly like after

5:04

2019 I would ignore those type of emails and and those messages from inside IHOP and people like man I read your story

5:10

and I realized man I'm not crazy I'm not crazy I was treated the same way and I would just be like uh uh you know I

5:17

didn't know what to do with it honestly so now hearing this brought back this kind of like oh my gosh this is how this

5:25

is conducted this is how these meetings are conducted Within the side rooms the

5:30

back rooms called in you know spoke to like this and and you're like okay so

5:38

just just to add some context so yeah I think it's interesting that he starts the convo with hey uh

5:43

you're like I'm hearing your name a lot and he's like okay he's like okay what and he's like I just agreed do you

5:50

agreed to me hearing your name yeah and he's like you betrayed me and he's like

5:55

okay what how did I betray you I'm not going to tell you it's just very very interesting um okay so let's move on a little bit so

6:02

what are other things that we noticed um yeah just some things to pay attention to again we're going to play the entire audio for you guys to listen to yourself

6:08

make your own decision see if you think it's like super strange or if you think this is normal behavior for somebody in

6:14

leadership to treat somebody um there's a couple things that stuck out one um

6:20

other big one was I have a couple like the transcript here

6:26

um where it seems like Dave sler is

6:31

admitting to knowing about part of the allegations before they made their

6:37

statement that this is the first they've heard of them which is huge um because

6:44

they literally stood on stage and said you know we just found out about this days ago and The Whistleblower confronts

6:51

him multiple times and says you know you lied from the stage you knew about this I know you did and he brings up an

6:57

instance of an actual conversation they had about a specific victim from months ago which this conversation here also

7:06

matches the um article that came out on the Roy's Report with Dwayne Roberts

7:12

saying that they knew about this allegation from months before but somehow stood up on stage and said they

7:18

just found out about it which also makes sense why everybody heard Isaac say that

7:25

he's been crying about it for weeks and you're like wait have you been crying about it for weeks St found out the

7:31

initial statement from IHOP KC from stage Isaac said I've been crying about this for weeks and I think a lot of people went wait a second I thought you

7:37

just heard about this so if you pay attention you will hear him caught in a

7:42

lie but he's he keeps saying to The Whistleblower I never lied to you I

7:49

never lied to you and and he's like I you lied from the stage he's like I never lied to you it's just like so it

7:57

was it was really interesting um and and again some of you guys might listen to this and if I'm in a place where I'm

8:03

just committed to like if Mike Bickle uh

8:09

it comes out somehow that there's proof that he did this and this is what's so

8:14

interesting Christina about like I listened to um Steve Strang the other day the director of Charisma magazine

8:22

and he he basically um made Mike ble a trump character do

8:28

you like he basically uh compared him to oh this is like Trump getting these

8:34

types of things and they're all it looks like it's all false you know and people making this up this that and the other

8:41

um and so the idea of proof and again you know we're we're in contact with

8:47

people that are working with victims uh that are alleged victim survivors of

8:52

this abuse and you go well why don't you just say it come out with it somebody said that to us the other day why don't you just come out with it why don't you

8:58

just say it acting like you got this secret knowledge like I want you to think about what you're saying okay um

9:04

cuz I as a man I'm not I was not a big met too supporter back in 2018 I was not

9:11

all into that I was literally going like what about the guys that are getting false allegations against them and then they get their lives ruined what about

9:18

that like that is more the way that I kind of am wired initially and so for some of you women you might hear that

9:23

and go oh my gosh I can't stand that but like that is the way a lot of dudes are wired and and and for it's not for

9:29

complete terrible reason that we are because there are false allegations that do happen 8% of the time within the

9:36

church walls 8% of the time it comes out that it was false 92% of the time it comes out that it was real so do you

9:44

really want to be that one person that leans on the 8% heavily when the problem

9:50

here is that there's multiple allegations and and so I'm saying that

9:55

to say um where was I going with that that I'm not sure oh yeah people are

10:02

saying like why don't you just out with the out the victims well because something in me during this process has

10:07

really turned in this way that it's not against Mike actually in fact the start of this process for me was like there is

10:14

no way on the planet Mike is the last Pastor ever in the history of planet Earth that I would have put on the list

10:20

to do this I really like that is where I started when I first heard this problem

10:25

was I started to have these conversations with different people on the inside that went oh no so I went from like there's no way to uh there is

10:32

a way and and then it went to oh my gosh watching their statements their public statements I went oh my gosh this is

10:38

like seeming this is very this is scary um something has happened something it

10:44

looks like something according to these allegations their statements that something has happened so why we don't just out with it say the names Etc well

10:51

because what if that person is you what if that person is your daughter what if that person's your wife what if that

10:56

person is your mom what if that person like think of the person the the the the

11:02

daughter in your life the the the woman in your life like this is something that we were talking with a um a professional

11:10

Advocate that works in these situations and it was just so interesting to hear she said this is one of the first times

11:15

I've ever seen strong men in a community stand up for women and it's it's so

11:21

awesome to see and so that's that's what I'm saying is I'm going you know if it

11:27

was all false I would actually be happy that it would be but it doesn't seem that way so therefore I'm going who are

11:33

these these women need to be protected their names being out there you know what that does to them it actually puts

11:39

them on blast it puts them in dangerous situations and if it is actually if it has happened and it has been covered up

11:45

then what kind of organization are we dealing with I understand that that's a cog causes cognitive dissonance to those

11:52

who have like grown up on Mike bickle's teachings and all this stuff but you just have to open your heart to the fact that you could be wrong um and if you

11:59

are then then what what women what have they experienced and how do we need to protect them and that's why we don't

12:06

just outn names right so um let's keep going where at um well there was another

12:13

point where the Whistleblower says you lied and he tells them to stop lying yeah that's one there's a lot of

12:20

points yeah actually let's talk about that for a second so he did say cuz he kept saying like you you li from the

12:26

stage yeah you lied he was like you li from the stage and he was like we would I I would never lie to you I have a

12:32

20-year track record of never lying to you I've never lied to you and he goes he kept saying that over and over and he goes you lied from the stage you lied

12:40

from the stage about what you knew when you knew it and and as you get into this audio you'll find out that the guy The

12:45

Whistleblower is actually the one that brought this person some of the allegations months before so The

12:51

Whistleblower actually knows that this person knew more than they were giving off from the stage so he said you lied

12:57

from the stage I watched you do it and he said he says to him what does he say let he says you said that once and it's

13:05

noted stop saying it yeah he says it's wrong you said it once it's noted stop saying it I'm going the the leadership

13:12

team member said over and over I would never lie to you I never lie to you and he says you lied like three or four

13:17

times he goes you said it once it's noted stop saying it I'm going dude like

13:23

it anyway yeah I just thought that was so strange um yeah I thought it was too

13:29

and the way he keeps bringing up their friendship he's like 20 years of friendship 20 years of this I've always

13:35

you know I've never lied to you all this all this stuff about their friendship and it's just so manipulative because

13:41

it's like just because you've been a good friend to somebody for 20 years doesn't mean they're obligated to cover

13:48

for you you know whenever you're lying right and it just shows you an inside

13:54

look into how these conversations go and the manipulation um of how they talk to

13:59

people like like I don't know their actual friendship or relationship and maybe

14:05

they were really great friends and I'm sure day sler has done some incredible things for him in their life I'm sure IHOP has done incredible things for tons

14:12

of people I know they have otherwise they wouldn't a successful Ministry but that doesn't mean that people are

14:19

obligated to cover for them whenever they are doing something evil you know

14:25

and that's the part where it's like gets twisted yeah yeah it's it's um he keeps bringing up

14:31

the Friendship the Friendship the Friendship I'm hurt I'm hurt I'm hurt and listening to it is just so it's just

14:37

so interesting basically like you I called you in here for you to sit down in this room with me and this other

14:42

witness present you know because we're really into Matthew 18 to guess why why I'm hurt for me to tell tell you I'm

14:49

hurt and betrayed and then me to you to you can ask me and beg me to tell you why and then you can and then I can

14:56

notice you're not fighting for our friendship but you have an opinion the opinion is you lied that's the opinion you lied

15:02

from stage noted stop saying it I'm hurt you betrayed me it's

15:08

the's no you're the bad guy you betrayed me not that he lied from stage but but

15:14

this person betrayed him and he won't even tell him why it's just so and that's unclear in the in all of this

15:21

like you betrayed me what did he do to betray you we we don't know um but what

15:26

is clear in the audio is this was blower had come to him with information about allegations that we bleep out names in

15:34

this audio but he comes to him and these things are known these things are known

15:41

prior to when they said they knew them and he kind of tries to make up for it like I didn't know the extremity of the

15:46

allegations how extreme the allegations were well but Dwayne Roberts came out in

15:53

the Roy's report and said actually for the last 18 months we've mentioned this to to them these allegations for the

16:00

last 18 months um not only that but what did the Roy report say as far as the

16:05

official there was an initial um reach out we can put it we can throw it on the screen share I think it was October 10th

16:11

or something like that the initial one yeah I can't remember the date but but but it was clear that there was an that

16:17

it was actually given prior to when they said they knew from stage and it's clear

16:23

that they had done it for 18 months and so there's a lot of interesting kind of twisting there and just just the

16:29

Friendship pull of and that's the that's the weird dynamic here you go well

16:34

they're friends and this guy's just trying to stand up for the friendship I get that but there's a power play that people don't recognize when you are in

16:41

the position of a follower and someone's a leader they have spiritual uh they

16:47

have Spiritual Authority over you in some senses and then there's another person in the room that's also your bud but they have spiritual leadership over

16:53

you like you are literally in the weaker spot sitting there listening and there saying stop talking you said what you

16:59

said you can't say that anymore it's like okay and then I I I think I hope

17:05

people can hear the dynamic at play a lot of people are going to hear this and probably go it's whatever that's it's

17:10

whatever um and that's fine because this is you know people can decide how they want here but um I think it's I think

17:18

it's interesting to note the power play between the two here on that note and

17:23

the fact that the whistleblower blowers stood up to him and said no you lied like this is perception not CU I heard

17:30

it from somebody else you'll listen to the conversation the EI member umer says no you're listening to other people's

17:36

opinions instead of believing me but this doesn't sound like something other opinion came to him it's literally what

17:42

he saw with his own eyes and there's something that else going on between that relationship that I'm not sure what

17:48

that is of betrayal or whatever he's feeling like but um and I'm really not interested in it that much honestly I'm

17:55

I'm interested in what this has to do with these victims and the knowled and then what they're saying from stage

18:00

because that's why it's hard to trust the elt and what their statements are are bringing out because it doesn't seem

18:08

like they're being forthright right and then Isaac says well that's 1% what did he say he said that's 1% said this means

18:15

you're assuming a thousand data points because here's what he said let me let me pull back one um sentence because I

18:21

did want to bring up that The Whistleblower also says this like her about it he said that he's recalling a

18:27

conversation they had pre previously um whenever sler did know about these other

18:33

victims and he said you said quote I've known about victim and I've been working

18:39

with this victim through this so sler literally said to The Whistleblower that

18:45

he was working with a victim through this months ago whenever The Whistleblower brought up a different

18:52

victim's name so it's like this is happening this is going on and sler knows it because he's working with one

18:57

of the victims right so it's just like how are you

19:03

going to stand up there and say you just heard about it right well and then you have the then

19:09

you have the thing where he comes out finally and says hey look I would tell you I could tell you everything but you

19:16

won't but I don't trust you and you wouldn't believe me even if I told you and I'm going I don't think now I don't

19:24

know this for a fact and it's not said in here so this is Absolute Total speculation however I am being made aware through

19:30

different sources that there are ndas involved in all of this and I have a feeling that these guys have like you

19:37

know signed some ndas to uh protect themselves and and at the end of the day

19:43

this is just again outside Outsider former Insider current Outsider that loves the Lord follows Jesus like

19:50

literally wants to see truth and Justice happen in this situation I get the sense

19:55

that I just feel like they're protecting the top guy they're protecting the

20:00

organizational structure in the top guy and they're kind of running front and it's like it it seem it just seems so uh

20:08

everything seems so you know it seems like they're guarding the top guy right so so then Isaac says right after that

20:16

after The Whistleblower brings that up Isaac says this means you're assuming a thousand data points but it just means

20:22

one data point which it does which honestly that sentence makes no sense to me it doesn't any

20:28

I know exactly what he's saying based on the conversation GA that he's saying like you're right about this one data

20:35

point of this that's like the strangest sentence I've ever read I'm just like

20:40

for heard yeah he says you're you're right you're assuming a thousand data points based off this one which you're

20:46

right about this one small data point of the timing of the knowledge of certain

20:51

things and so you know as you kind of listen um sler really says like the

20:58

extremity of the allegations which I honestly this was concerning to me this

21:03

part was concerning to me and I don't know and I know that I I don't know this for a fact maybe cyer listens to this

21:10

maybe he doesn't and and like I had a great email exchange with slier back in 2019 I'll just bring that up again

21:16

because sler and I met in a in a room in a back room at midnight um or at 10 p.m

21:22

with Stuart Greaves in 2013 when I was no longer a part of IHOP I was actually going to another local church at the

21:27

time I had gone I I had gone to this other local church I was under another Pastor who I was meeting with great guy

21:34

won't even mention them I don't want to get them in it at all but I got called in to this meeting uh months after I had

21:41

left IHOP and it's because my theology was differing to IHOPs and they didn't

21:47

like my style and all this stuff and when I look back I'm like I don't like my style back then either I don't even like my theology back then but like but

21:54

the this whole process was so interesting and hindsight of it all cuz I'm not really burned by that anymore

21:59

and I like that's why the whole conversations happen in 2019 these emails and it was like yeah we could

22:06

have done that different I'm like yeah I should have done everything different you know okay cool buddy buddy awesome glad you're loving G glad you're loving

22:11

G so literally there is like I actually actually I don't know Dave that well so

22:17

it sounds so silly say I love Dave you know these people you can say these things literally somebody said on my last video yeah you can say you're not

22:24

burned you can say you have this everybody can judge people's hearts as much as they want but I'll say I

22:29

actually love the body of Christ so I I care about Dave I care about Stuart um I

22:34

I care about truth more than I care about the system of IHOP the prayer movement Will Go On Without IHOP KC um

22:41

this is way more important than the movement the prophetic history what's happening right now and how this is

22:47

handled will be known in history and how you guys handle this is very very

22:52

important so to say you love truth and all this but to be signing ndas and like protecting the top guy it's so

22:58

concerning to me I'm so deeply concerned with this and um I don't know what the ramifications of all this is going to be

23:04

but I just am so concerned with how this is being handled and what it looks like

23:10

publicly and what's being said privately so I think there's more known and I think that like not like if 1% is a

23:17

lie then how can we trust anything you guys are saying to the to the front because it seems like what all the other

23:22

guys are saying they're like no that's not the timing we brought we tried to do Matthew 18 with Mike ble and he wouldn't

23:28

meet with us imagine like our pastor if I tried to go meet with them and to

23:33

confront him about something me and a few others and he's like I don't have time for y'all we're like but dude we got serious allegations it's big problem

23:40

it could be a big huge issue you need to and he's like no thanks I don't want to hear it what do you even what can you

23:45

even do at that point so they had to come out with these statements so um what else in here do we want to cover

23:51

before I don't know do you want to talk real I have one more big thing but do you want to talk a little bit about how um he said that you'll laugh when you

23:58

hear it yes that was actually the thing I was going to say is concerning

24:03

is yeah just go through that and let's talk about that um just talking about

24:09

how he didn't know what the full allegation was and people were talking about the Alle for one of the people and

24:15

he said that it was said when people told him about it they were like yeah it's nothing you'll laugh when you hear

24:21

it right you'll laugh when you hear this allegation I just found that so gross

24:28

like this is the way these guys are talking about this and he is the one sler is literally saying it he was like

24:34

when it was brought to me people said you'll laugh when you hear it you'll actually be mad when you hear it it's so

24:40

ridiculous it's like this is what they're saying behind closed doors about these victims it's like

24:47

sickening to me that's like the most yeah it is it is like and I know like

24:53

for guys and for the guys in leadership you're going to be like yeah but if the AL ation what really sounded ridiculous

25:00

then that's why I'm saying that okay but there's still an allegation and what it gives off the impression of is that and

25:07

so let's just do a deep dive into how these things are handled organizationally over the years what's

25:13

public knowledge you can look at the change.org um thing for Gracia that she put out on

25:20

behalf of Jennifer roach with Brad tebbit in 2019 that's an important story

25:25

that we cover okay keep your ears up for that because that's very very important to this it's

25:32

not like people go why are you digging up the past that's been dealt with has it though has it been dealt with or is

25:37

that person that was um alleged to do

25:44

uh sexual assault of some kind or they were accused of uh in another church

25:51

somewhere years before or are they still on staff at IHOP a person that

25:58

was previously alleged to do these things and they are possibly still on

26:04

staff there how is this how things are handled so so does this give off the vibe that well we deal with these things

26:10

in this way oh here's an allegation oh you'd laugh when you hear it what was it like what what was that allegation that

26:15

you would laugh at what's laughable a comment would be laughable maybe a sexual inuendo comment that's laughable maybe like just uh weird Brush by

26:23

somebody in the hallway touch them kind of funny accidentally like it made me feel uncom he looked at me weird like

26:29

what is laughable in this context what's funny here what's laughable what's ridiculous because according to all

26:35

these stories you know that um who are the former pastors the Hesters after the

26:41

the podcast came out from Heaven bent um 40 to 50 text messages came to the Hesters about sexual allegations uh and

26:50

sexual abuse being brought to the leadership and mishandled if this is if this private conversation hear me here

26:56

okay all you pastors out there all you people that are trying to tell us that you guys are slandering mik listen we're

27:01

not we're not slandering anybody we're bringing facts to the table and asking all to take a look at this please

27:07

because Behind These scenes thousands thousands of young people have gone through these doors thousands every year

27:14

we send our young people there every single year and if this is how they handle accusations or alleged sexual

27:22

misconduct from leadership oh it's laughable

27:29

then how can anyone feel comfortable bringing anything to these people at the end of the first statement Christina the

27:34

first statement from stage from from Stuart and Dave at the and and Isaac it was like please come to us please come

27:40

to the leadership team if something has happened are you kidding me like if my

27:46

daughter was there first and for my daughter was I said get the heck out a Dodge because there's there's things

27:51

happening there that I I don't trust that any of this that they'll handle anything negative at all but if

27:57

something had happened to you don't go to them don't go to them

28:03

because they don't know how to handle these things and they're not willing to bring third parties in they're not

28:08

willing they actually think they can handle it I I know right now that the leadership team is handling it

28:15

internally not allowing extern well they say well we wanted to get Grace but Grace had already um taken which Grace

28:24

said they never reached out to them that's what the article said that Grace said so they they did they said they

28:29

they actually had contact never had contact so who knows what's going on there but

28:35

um but this the this the facts are not adding up or the the story is not adding up and when you hear this okay it's

28:42

laughable what's laughable what's laughable so anyway um and then one more thing I want you guys to pay attention

28:48

to that really at least I paid attention to that stuck out to me um was at the

28:54

end whenever they were leaving and um sler goes to him he says but hey

29:03

those people that are telling you about me those people who are talking next time you're in a real hard place call

29:09

them up I'm sure they'll help you I'm sure they'll be there for you I'm sure

29:14

they'll stand by you I'm sure it'll go well that like made me sick to my

29:21

stomach because that's actually like that language is like grooming language

29:26

to make somebody feel like you're their only option that these other people

29:31

won't be there for them that those friends won't be there for them like it that's like what groomers do to

29:38

potential victims or victims to make them feel like they're all they've got you know and it's so wrong um that

29:47

whenever I heard it it was like whether he was doing that in this moment I don't know what he was doing but it came so

29:53

natural and it gives you an another again an inside look to how they treat people and how they talk to people okay

30:00

go call those people next time you're in trouble call them next time you need something I'm sure they'll be there for you

30:07

like it's like it's like uh it's like somebody like breaking up with somebody

30:12

and saying well okay fine but no one no one will ever take good care of you like I do no one will ever love you like me

30:19

no one it's like it's totally a tactic of of manipulation and and now granted

30:26

this is a friendship that a longstanding friendship I know there's an age difference there um of probably 7 to 10

30:33

years something like that so there's a leadership level there that but so

30:39

there's it's always been a leadership relationship on top of a friendship and what's so interesting about this is the

30:46

lack of lines drawn here so oh we're talking about friendship why aren't you

30:52

meeting at a coffee shop why aren't you meeting at a coffee shop why why pull him into a side room hey meet us in a side

30:57

me who both of us in the side so you can so I can sit here and make you guess why

31:02

I'm mad at you like is this a friendship or is this a leadership scenario and the lines are very very blurred and but but

31:11

the authority is constantly hung over him with you know

31:16

this whole scenario but then also the the the rope in of like I'm hurt I'm

31:22

hurt I'm hurt I'm hurt I'm hurt okay granted yeah you're probably hurt a little bit

31:28

but like do you realize that there's a reason why that this person doesn't

31:33

trust you anymore or do you think they're just listening to somebody else oh you think they're just listening to

31:38

other people and that's why they don't trust you anymore no they're they're actually pointing out things that

31:43

they've walked through over the last 3 to six months and seen and then heard

31:48

from stage that aren't matching up so this is not like I mean it doesn't take

31:54

a rocket science to see like Okay so just because you're hurt doesn't mean I

31:59

have to just be like H man I'm sorry you're hurt yeah let's fight for our friendship actually I don't know if I trust you to actually deal with this and

32:05

handle this rightly on behalf of the victims that whistleblower has spoken to

32:11

so who do you go to in this situation well I'll just trust our 20-year friendship because you've done so many nice things for me and I'll just trust

32:17

that that 1% that you lied from stage that little 1% that we'll just you'll probably correct it in the future and

32:23

we'll be good um and this person will just you know like everything's just fine and dandy no this

32:29

whistleblower like I don't know what kind of issues this person has I don't I don't know this just a person right but

32:36

they they had the they had the balls to um to go in and record this you go well

32:43

I cannot believe that someone would record this conversation why why can't

32:48

you believe that if he had been lyed to he saw everyone being lied to from stage

32:53

and he knew there was lies like why yeah why would you not believe that he would record it and it's not illegal to record

33:00

in the state of Missouri yeah so like whatever your complaints or convictions are about that it doesn't really matter

33:06

that's not the point there's much bigger like things to talk about much bigger fish to fry here and I think too something to pay attention to when

33:12

you're listening and if you do have that mindset like I get it but if you have that like mindset of like he's going in

33:19

there to do this it's like or he's a bad guy or whatever you think of the Whistleblower it's like well sler is

33:27

literally saying that they're friends they're friends they've been friends for 20 years so why would he stand up to him

33:34

like this why would he say that he's lying why would he say all of those things you know it's another thing when

33:39

people just say like everyone complaining is like a disgruntled employee or people just like trying to

33:45

take them down it's like no this is his friend and he's the one saying it it's like Dave sler is admitting this is his

33:51

friend and he's heartbroken about their friendship so why would why would this guy do this unless he abs absolutely

33:58

believed that they were handling this wrong and that Dave sler is a liar like you wouldn't do that to

34:04

yourself you wouldn't put yourself through that conversation for what you

34:10

know yeah so you have to think about that too like who's bringing this to the table it's a

34:16

friend yeah yep yep so that said guys um take a

34:23

listen to this audio comments below some of you guys are going to be like y'all are totally

34:29

off on your com that's fine that's fine it would be awesome if everything was transparent you know actually we

34:35

wouldn't even have to do this if like if the one the one thing that was said from

34:41

stage um it wasn't an admission of guilt by the way there hasn't actually been any admission of guilt technically so

34:47

for everybody out there that's saying this is true this is true no there hasn't been an admission of guilt there's been a there's been one uh

34:54

statement from stage that or two that said there's cred credibility on one of

34:59

the alleged uh victim statements there there's credibility so what does that mean it means that they go this is

35:06

something that we need to pay attention to because the person bringing the uh

35:11

statement is trustworthy and uh the situation the scenario is likely is

35:18

possible so what what all these people out there though like what's Wild to me is like show proof show what do you want

35:24

to see a video you want to see an actual video of this happening you want to see like what do you want to see like why didn't

35:31

they come out earlier like you have no idea what people go through when they when this happens to them you are

35:37

absolutely clueless if you're going to mainly just throw throw stones at a at a

35:42

alleged Survivor or victim by saying they haven't they they should have come out sooner this that and the other yeah

35:48

they should have I wish they should I wish they would have but it's way more complex than you realize and honestly

35:53

it's way more complex than I realize but we need to allow them to have a voice in

35:58

this and the problem is that if if if they say this is credible

36:05

well what is Mike saying we don't know because he's silent he's silent as a lamb to the slaughter right he might as

36:10

well be Jesus himself and I say that a little bit sarcastically and and I honor the man for a lot of what he's done and

36:16

I've trusted and I've loved and I've actually appreciated I've gained so much from his teachings but I'm so concerned

36:22

at the level of um commitment to this man that I'm seeing from from certain

36:28

people I love some of the video I'll just say I love some of the videos from IH Hoppers right now that are saying hey I'm just I feel called to the prayer

36:34

room I'm not here because of a man I'm not here because of teaching I'm just here to pray out let see okay cool that's that's step one that's step one

36:41

to be like okay I'm open to the fact that maybe this guy I have no idea but I'm here because Jesus called me and I want to pray and seek God awesome but if

36:48

but if anybody running front on the is is in the elt right now I think there needs to be massive reform in the elt I

36:54

think anybody that has that has been accused of mishandling sexual assault uh information over the last decade needs

37:01

to probably be taken to task here and I'm not saying like like something ter I'm just saying it needs to be reformed

37:07

it needs to be seen and probably a change of the guard in some way um but

37:13

yeah that's we'll see what happens but um I have to bring one more thing back up okay so one more thing that stuck out

37:20

to me which is actually what we played in the one minute audio um which was

37:27

shocking to me is he says um I can't say on Saturday the victim story is true

37:34

because I didn't verify it so while I had heard it on Saturday I didn't know if I believed it yet I needed to verify

37:44

it so to me he is alluding to the fact that he did verify it that word yet

37:51

there is very important very important so it sounded like to me and that's why we thought thought that audio was so

37:57

shocking it sounded like to me that he was alluding to the fact that he did verify it and so he does believe that it

38:04

is true which means there's three victims mentioned in this one he walked

38:10

through is walking through he mened that he'd been walking through uh people connected to that victim actually one he

38:18

knew about months ago and one he's alluding to that he has verified that that is what I heard so you guys listen

38:24

to it and see what you from Saturday of the day that they made the announcement to Tuesday he's saying I had yet I had

38:31

not verify it by Saturday I had not verified it yet so it seems like he's like verified it and now he's like oh

38:38

dang this one's bad that's what it sounded like to me and that's why this whole thing sounds like a bunch of lies

38:45

and it sounds like he knows that these allegations are true um so that's what I

38:51

hear from it and if you don't hear that then like that's okay but here the way things are handled here here like the

38:59

inner workings of being in a room and how they talk to people and the manipulative language and the like

39:05

spiritual manipulation and even just all of the like friendship like you hurt me

39:11

all of that if if that's not even enough for you to just be like this is not okay then like I don't

39:21

know what is going to yeah hopefully for for IHOP insiders you know right now like um people that are teachers or

39:29

prayer room people or whatever um I hope that you can just like take a take a

39:35

good look at everything and just be open to questioning uh this is not about theology this is not about Mike Bol

39:41

theology somebody said to me the other day on a comment you're saying you believe that Bob Jones prophecies da D

39:47

I'm like what what does that matter like what does that even matter what I believe about that like like it it

39:54

that's not the topic of conversation here that's that's a whole different conversation but this is not about disagreements in theology this is not

40:00

disagreements in in Time stuff this not disagreements about prophecies this is not about like is Kansas City is God

40:07

calling a group to Kansas City to pray night and day 247 yeah probably because it's happening and it happened but but

40:14

what else is God calling to love love Justice walk humbly with God love Mercy love Justice like they needs to be what

40:21

what is that verse in Isaiah rebuke the oppressor like like uh have nothing to

40:27

do with the Deeds of Darkness rather expose them like something like rather expose them okay let's all sign

40:34

indas what like I am mind blown right now that and you go how do you know this

40:40

well I I I know that there are people that signed indas and I also know that there are people that have been offered ndas that didn't sign them good on you

40:47

if you're a mid-level or top level leader and they offered you some NDA and you didn't sign it then I'm freaking

40:52

like you are my hero you will probably never be known for that but you are my hero right now because what a mess why

41:00

why would you want to be in a system like this and I saw somebody comment yeah well this is pro they have to protect themselves because they're going

41:06

through these allegations I'm like if you got to protect yourself with ndas based on like that is telling in the

41:13

church right here what a mess so so Allen Hood just wants to tear you guys

41:19

down what does he get from this what like uh Dwayne Robert I mean this is causing problems for these guys just f

41:26

Yi but you know stand up for these women and I appreciate Allan doing this I appreciate um you know Sam Hood I know

41:33

is like uh you know Allan Sun saying a lot of great things right now those that are standing up for uh being victim

41:40

Advocates I appreciate it I appreciate it and uh those of you that are open and listening I appreciate it um I do and so

41:49

anyway hopefully this is helpful but give it a listen and give us your comment below and I just want to say one

41:55

last thing I feel like this whistleblower is very brave yeah and as

42:01

you said has some serious boldness

42:08

gonus for standing up to sler like that like I am I remember I I'll just say

42:14

this too back back in I was friends with um the elt member that called me into

42:20

that meeting that time um but I was much younger I was like a decade younger and so you you just got to think of the

42:27

power play here like the people just go I remember people would say well during that six- hour theological debate why

42:33

didn't you just get up and walk out you got to understand there's there's things in play there's this there's respect levels there's Authority having respect

42:40

for authority and Spiritual Authority and like um all those things that that are in play and then you're like

42:46

thinking I don't want to be a rebellious person I I want I want to be open to hear and be teachable and but I also

42:53

want to stand up for what I feel like I'm supposed to do there's all these things things these Dynamics in play and there is Spiritual Authority in play and

43:00

so again like what's so interesting about it is if you want to have a conversation meet in a neutral place but

43:07

no the this is not the way it happens there it's meet me here side room back

43:12

room whatever um and at least when people show up they're like this at least I know I'm going in for something

43:18

I know I'm going in for a lashing I'm going in like I mean that's literally the things that people send like yeah I

43:24

actually had that happen to me so so at the very least there has to be reform on that and I thought that there was going

43:29

to be you know I thought that there was there's a lot of Reform that they're saying has happened even in the after

43:35

the um tbet situation they said in their statement which maybe we'll do an episode on that soon um the Brad tebit

43:43

uh because that is very very telling to their history and you've got to pay

43:49

attention to these things in order to see the current situation rightly um but

43:54

yeah okay guys that's that said take

44:01

care I know this place existed

44:06

yeah something new every

44:25

day going M it's

44:31

really I say I agreed to what your name's coming up

44:37

yeah okay tell me why your name is coming up so much let's go that you guys talk

44:45

first I don't know I don't anym and that's how feel

44:54

and I betrayed you

44:59

you called me here I'm tell you

45:05

me how did I betray you why you tell me no you tell

45:16

me okay think that's fine it breaks my

45:22

heart it breaks my heart too it really breaks my heart I didn't do

45:29

anything to you either what did I do to you I haven't mentioned your name once I stood up for you and I like crazy bro

45:37

that you just said you don't trust me after your texting me I trust youit I did until the last two weeks

45:43

yeah and did you come to me no did you guys come to me I went to you guys'

45:49

information and honestly I really don't care about if I did it right in the process or not I'm not talking about

45:54

that I'm talking about it's my friendship with you and you've done things that have hurt me behind the

46:00

scenes what have I done tell me I don't want to man I don't want to

46:06

tell me what I did behind the scenes I am not I'm I'm be through on this I've not done one thing to you I've not said

46:13

one thing about you I've not done anything to break trust with you I've only been a trust to you I've only f for

46:21

you that you not even want to fight for our friendship right now as I'm telling you how I am Rel to your actions tell me

46:28

what my actions are I'm not going to CU I'm telling you I'll Trust You you act untrustworthy man how what

46:36

have I done that with tell me I have no idea literally no

46:44

clue no tell me what I did okay you're not going to tell me what I

46:51

did I told people my story

46:58

I literally by nothing else

47:05

no why you just called me here to say that I betrayed you I said I said but actually I did

47:12

have your back I've had Isaac back a ton I I've had your back a ton

47:19

too doesn't seem like it how tell me what tell me what I did I have no clue

47:24

how I been this I'm telling you I am hooked because I

47:31

don't feel like I can trust

47:41

you I didn't do a thing and that's your point if you don't trust me it's because

47:46

you're listening to somebody else if I don't trust you it's because you did something related to me talking to you

47:52

and trusting you I never repeated our conversation that's not what I'm hearing I never I said we talked and you said

47:58

you wanted to follow the biblical process and you're understanding and that was it I you shared with me I

48:05

didn't share with anybody

48:15

else so that's why you guys called me here no I try as I started talking I

48:21

said hey bro I hear your name come up a lot like it seems like you're talking to go there okay like you you were already

48:28

you're already in a mode where something's up between you and I I didn't put it there I'm hurt by that I'm

48:34

going bro I feel like you betrayed me and our friendship is over and you're like okay like that's like heartbreaking

48:39

that response is hard so for me to go forward from there is like that was that

48:44

was a whole series of answers that really hurt me so I don't know I mean I'm coming in

48:50

I don't know what we're meeting about we're meeting because it feels like you're talking a t to outside people and

48:58

it's coming around and costing me people are coming to me yeah I know they are

49:05

okay tell me the situation and I'll explain it I'm not there yet I mean I could

49:10

bring up one that happened yesterday that I could explain to you what happened great you want me

49:17

to called me and said that I okay and I

49:22

said that did not happen they would never do that and I said go to D he told

49:28

me he did yeah that's what I told to do go to d i d would never do that I was

49:35

never with Dave when he did that they would never do that go to Dave is not who Dave

49:41

is no I know that you did that I appreciate that um this is helping me yeah I I was very

49:49

clear with and I understand why me cuz my name was attached to it and I said

49:55

this is not who dve is go talk to David don't tell anybody else go straight to Da I'm that's what I told them I'm

50:03

trying to understand how we went from Saturday you texting me I trust you

50:08

implicitly to today I don't trust you at all and I hav't done thing it's because

50:14

it's because of how this whole thing has been handled I don't trust anybody right now you trusted him is that not true I

50:21

don't know right now I think things are falling apart you guys have lied from the stage we have not Steward Li from

50:27

this St he did not yes he did that's such [__] don't deny that I'm denying it okay deny to you face turn

50:34

you guys lied from the stage you didn't you have not been forthright what's happening you're not going to believe me I don't I watched it happen I've never

50:41

lied to you I've watch I watched tell one time I've lied to you watched

50:48

it tell me one time not in person but on the stage I watched you guys Mis people

50:55

Li to you not in person not in person if I've never lied to you why would I lie right now you guys Li you guys lied down

51:02

stage you guys did tell me why I now tell me why I don't know I don't know

51:09

why now but you guys did lie on stage that's very clear very evident you said it once it's noted stop saying it that's

51:16

the only L I'm talking about I would never have thought you would lie I'm telling you right now I did not lie on

51:22

stage and I am not lying to you not now not ever I've never lied to you if I have a 20-year track record I'm never

51:29

lying to you and I'm telling you now I'm not lying you do with that what you will but if you're going to based on your

51:34

perception what happen that stage burn this relationship over that moment and you're here to talk to me about it you won't believe me I got nowhere to

51:41

go I got nowhere to go if you're not going to believe me right now okay and 20 years bought nothing and if all the

51:48

ways I've treated you bought me nothing I got nowhere to go what are we going to do how do we be

51:55

be friends if you're willing to burn a friendship over that moment I got nowhere to

52:00

go I I'm not willing to burn a friendship I'm just I'm telling you where I'm at and what I feel right now

52:07

no you're not telling me what you feel you're telling me what I did and you're insisting on it and no matter how many times I tell you I'm not you won't stop

52:14

insisting [___] the word you used yeah I feel like the way this whole

52:20

process has been handled is [___] okay we got nothing to talk about then cuz I can't explain to you anything I

52:26

can sit in and tell you everything but I can't trust you and you won't believe me and so what's the point you called me

52:33

here didn't I called you here hoping to have a conversation but I can't have

52:41

a conversation with someone that isn't going to believe anything I say no matter what the last 20 years have done I never said that just did I said you

52:48

guys Li from stage that's what I said I said it's hard to trust anybody right now I'm telling you we would never do

52:55

that we would never like her s we would never do

53:04

that okay I don't know come from you because it

53:09

happened do you guys said you didn't you just found out about you guys didn't just find out about it I went to you on

53:15

Wednesday the second I heard everything I went to you sit there all the accusations or at least part of the

53:21

accusations yeah which part the thing you knew about w for I yes you did you

53:26

told me when we met that you you've known about it for months and I've told people this I knew about one small

53:33

allegation and what did I say to you on Saturday about it what did I say you said that your story is changed no I I

53:40

said this makes me sad I makes me sad I didn't know what

53:46

the allegation was until you just told me I said that no you knew about that you told me you knew did I say did I or

53:52

did I not say and I said it a few times the ACC that I brought you did not know about about you knew about you told me

53:59

about I know that I said it to you you said I've known about this and I've been working with the through this that's

54:05

what you said I this means you're assuming a thousand data

54:11

points it just means one data point which it does okay then then cool but

54:17

you still knew about it no cool we didn't not cool not

54:23

cool I need 1% and I found out about 99% on Tuesday I'm guilty of

54:30

lying that's how it's going down you're forgetting a very important part of our conversation and that makes

54:36

me sad what part the part where I looked at you and said I did not know the specific allegation me sad that you're

54:42

telling me right now I I I actually said to you at the table I go I'm sad I wanted to get through this without knowing what the allegation was because

54:49

that's at that point I was I was pushing biblical process cuz I thought it was a little indiscretion and the thing that

54:55

people were telling me was it's like uh you'll laugh when you hear it that's what people kept telling me you you'll actually be mad when you hear it it's so

55:02

ridiculous but I but I did not know what it was until you told me on Saturday so now is calling me a liar I'm going know

55:10

till Saturday that is the 100 I never even mentioned our conversation stop telling

55:16

you before the Lord in fear of God as a man of God I don't cool I'm sorry I'm

55:22

sorry the trust has been completely shattered to do that and that's where we at we got nothing to talk about I've done nothing

55:29

to do that I've done nothing if you don't trust me it's because you believe somebody else over someone that's loved

55:35

you as a friend and served you for the last 20 years and believed you and believed in you so somebody else did

55:40

that to you related to me and that makes me sad we got nowhere to go because if I can't tell you what's true in terms of

55:46

what I'm saying and you don't believe me we got nothing we don't have a friendship we got

55:52

nothing and that hurts me that hurts me well this whole thing hurts me too well

55:59

it is what it is then I'm sorry I'm not sorry Randy I did I did

56:05

nothing I did nothing to break your trust I did nothing to hurt you somebody

56:10

else is telling you something and you don't believe me you don't believe a word I'm saying that makes me sad but I

56:17

would have thought that my investments in you as a friend would have bought me more than that so thanks for standing up

56:23

for me I don't want you to stand up for me I want believe me like say words but if I can't say words and you

56:29

don't believe me I got nothing I've never ever lied to you even

56:36

now I'm having to remind you of how our own conversation was you're wrong I didn't know until

56:45

Tuesday when they laid it out to us that was the first time I heard those

56:50

allegations the M story was like 2% of what they said on Tuesday and I didn't

56:57

believe you I I can't say that Saturday the is true because I didn't I had to verify it so while I heard it on

57:06

Saturday I didn't know if I believed it yet I needed to verify Saturday to

57:12

Tuesday isn't a lot of time but the idea that I knew before Saturday is a Lie the

57:17

idea that I knew what the allegations were before Saturday is a Lie the idea that I knew what was going on before

57:23

Tuesday is a lie you don't want to believe me I don't give a sh you do with that what you will

57:29

I've never lied to you ever in your life but if you think I'm lying now I don't give a what you think cuz you're willing

57:35

to burn a friendship over somebody else's version of this story and you won't listen to me live with

57:44

that anything else no

57:53

okay I didn't I didn't spread anything I've had your I

57:58

don't care about that you're telling me that you're trusting me is shatter based on lies and you won't believe me when I

58:05

tell you otherwise you got nothing more to talk about this me's done okay I think a friendship's done and that's sad

58:11

CU I didn't do anything okay but hey those people that are telling you about me those people that are talking next

58:18

time you're in a real hard place call them up I'm sure they'll help you I'm sure they'll be there for you I'm sure

58:24

they'll stand by okay I'm sure to go well

58:29

okay is this it it really is okay

58:36

cool then I guess we'll see you guys I don't think we will

58:43

okay that's you guys I don't you guys are a same [__]

58:51

that's going down quickly your worship

58:59

teams Dave what's about to happen to you I feel sorry for

59:10

you up and up

59:19

and
